

Mr. Raymond Yu is president and CEO of W R Systems, Ltd., a Fairfax, Virginia-based information technology (IT) and engineering firm that provides cutting edge technology services to the Department of Defense, Department of Homeland Security, and Department of Justice, as well as numerous civilian Government agencies and organizations in the commercial sector.

W R Systems, Ltd. draws on Mr. Yu's 35 years of executive management experience and entrepreneurial expertise to offer its customers a wide variety of innovative technology solutions, ranging from Radar Surveillance, Navigation Systems Engineering Support, Interior Communications, Electronic Charting, and Maritime Domain Awareness to Government Supply Chain Logistics and IT systems development and support.

Mr. Yu founded W R Systems, Ltd. in 1983, and since that time has watched his company grow from a two-person company to a respected and innovative information technology firm of almost 350 employees.

A 1998 graduate of the Small Business Administration 8(a) program, Mr. Yu's company was a recipient of multiple "Fast 50" growth awards as it expanded its customer base over the years.

Mr. Yu's vision for W R Systems, Ltd. was to create a company composed of highly talented technical professionals committed to client-centered solutions and excellence through the innovative application of sophisticated technology. That philosophy, combined with industry best practices and a rigorous quality management, resulted in a 25-year track record of success that created extraordinary growth for W R Systems, Ltd.

Now at the helm of a mature and forward-looking company, Mr. Yu is focused on expanding the many enduring relationships formed over the years with his customers in both the public and private sectors.

Mr. Raymond Yu *President/CEO* **W R Systems, Ltd.**

Mr. Yu is an active participant and supporter of numerous professional associations, many of which promote the advancement of small and minority-owned businesses. He is active in the Northern Virginia Technology Council (NVTC); the Organization of Chinese Americans; the Asian American Business Network; the Armed Forces Communications and Electronics Association (AFCEA); Monte Jade Science & Technology Association of Greater Washington, DC Area ("MJ-DC"); the International Society of Logistics (SOLE) Pentagon Chapter 02-11; and the National Contract Management Association (NCMA).

Mr. Yu is a graduate of New York University and holds a Bachelors of Arts degree in Mathematics and Computer Science.
